# Made in Germany.

**#madeforwhatmatters**

Made in Germany – to us it means creating lasting value.

With our unique combination of leading technology, craftsmanship and premium materials we craft the finest cookware. Since 1845 to be precise.

In every curve, edge and surface we celebrate our experience and passion. We are proud of the fact that some of our employees have been working at Fissler for over 30, some even over 40 years - just like their parents and grandparents before them. This has allowed us to develop ideas and enrich our know-how across generations leading to Fissler's legacy of innovations.

As a family-owned business, however, Made in Germany also means to maintain our production site in Germany. Since its foundation in Idar-Oberstein in 1845 by Carl Philipp Fissler, Fissler has been deeply rooted in the region of Rhineland-Palatinate. It is here where we manufacture our own tools, train future generations, continue to innovate and ensure perfect quality. From our home we come to yours: inspiring and empowering passionate cooks around the world. Crafting premium cookware in appreciation for the best ingredients, the cook and the special moments with the people we cook for.

Fissler. Finest Cookware.  
#madeforwhatmatters

To us it means  
creating lasting value.

# “Simple ingredients, brilliantly prepared. This makes for good cooking.”

The 'Posthotel Alexander Herrmann' is located in a historic half-timbered house in Wirsberg in idyllic Bavaria. It is also home to the gourmet restaurant of the same name which earned Alexander Herrmann two stars from Guide Michelin. Despite haute cuisine and all his accolades, the popular top chef has a clear view when it comes to cooking:

“Good cooking is the result of uncompromising reduction to the essential. We live in a time when there is too much of everything. And every day new trends are emerging. What gets left behind? The real and true, quality and reliability, and in particular, appreciation.”

For Alexander Herrmann, cooking is all about focusing on what is essential, and above all, it is about appreciation expressed through cooking; appreciation for the ingredients, friends, and guests he cooks for as a host.

And it is exactly this philosophy of appreciation that Alexander Herrmann and Fissler have been sharing for a long time.

“I visited Fissler manufacturing site in Idar-Oberstein for the first time 20 years ago. It was a revelation for me, to see the passion and precision that goes into making pots and pans. You need empathy and love for the ingredients. This helps you create great meals at home. But when you are cooking with the finest ingredients you should prepare them with the best cookware.”

“In my experience, the most extraordinary dishes are prepared with as few ingredients as possible – and with the right tools. It's not the latest technology that is important but the right one.”

Fissler makes finest cookware to inspire and excite passionate cooks – our way to express appreciation; appreciation for top chefs like Alexander Herrmann as well as for ambitious amateur chefs, for valuable ingredients and special moments with the people we cook for.

**“The most extraordinary dishes are prepared with as few ingredients as possible – and with the right tools.”**

2-star Michelin chef Alexander Herrmann

Dishwasher suitability	Dishwasher safe

# Original-Profi Collection®

## Product benefits

### Made in Germany

Crafted in Hoppstaedten-Weiersbach, Rhineland-Palatinate, with a unique combination of leading technology, craftsmanship and premium materials – since 1845.

### Fissler's warranty

Highly durable, with a 15-year warranty on stainless steel parts.\*

### Up to 90% recycled 18/10 stainless steel

Sustainably crafted from up to 90% tough, recycled 18/10 stainless steel to last for generations.

### Condensate-Plus function

The slightly concave shape of the Original-Profi Collection® metal lid allows steam to drip back into the pot, making the dishes juicier and tastier.

### Oven suitability

With metal lids:  
Suitable for oven use at up to 230 °C (450 °F).  
With glass lids:  
Suitable for oven at up to 180 °C (350 °F).

### Extra-large pouring rim

Extra-large pouring rim for convenient and precise pouring of liquids without spills.

### Stay-Cool metal handles

The ergonomic Fissler Stay-Cool metal handles fit perfectly in your hand and ensure a pleasant grip temperature.

### Exclusive, energy-efficient Fissler CookStar® base

The energy-efficient Fissler CookStar® base is suitable for all types of stovetops, including induction, and ensures optimal heat distribution.

### Measurement markings in liters and quarts

Integrated measurement markings make it easy to measure liquids.

### Dishwasher suitability

Dishwasher safe.

# Fissler Pure Collection

## Product benefits

### Made in Germany

Crafted in Hoppstaedten-Weiersbach, Rhineland-Palatinate, with a unique combination of leading technology, craftsmanship and premium materials – since 1845.

### Fissler's warranty

Highly durable, with a 10-year warranty on stainless steel parts.\*

### Up to 90% recycled 18/10 stainless steel

Sustainably crafted from up to 90% tough, recycled 18/10 stainless steel to last for generations.

### Condensate-Plus function

The slightly concave shape of the Fissler Pure Collection metal lid allows steam to drip back into the pot, making the dishes juicier and tastier.

### Oven suitability

With metal lids:  
Suitable for oven use at up to 230 °C (450 °F).  
With glass lids:  
Suitable for oven at up to 180 °C (350 °F).

### Large pouring rim

Large pouring rim for convenient and precise pouring of liquids without spills.

### Handles made of polished stainless steel

The polished stainless steel handles fit securely in the hand.

### Energy-efficient Fissler Superthermic base

The energy-efficient Fissler Superthermic base is suitable for all types of stovetops, including induction, and ensures even heat distribution.

### Measurement markings in liters and quarts

Integrated measurement markings make it easy to measure liquids.

### Dishwasher suitability

Dishwasher safe.

# Pressure cookers

Learn more

# Step by Step – Pressure cooking made easy.

- 1 Open the pot - by pressing the control key on the lid handle and turn the lid to the right.
- 2 Add Liquid: Pressure Cooking always needs a minimum amount of liquid (water, broth, wine). Also be aware of the maximum fill level of the pressure cooker. According to recipe you can also first sear something in the open pot.
- 3 Close the pot - using the positioning aid. The correct position of the lid is marked by red dots on the tab and on the handle. The green locking indicator shows that the lock is securely closed.
- 4 Set your cooking level - according to recipe and turn the stove on.

- 5 Cooking process: The cooking display with color-coded traffic light function navigates you through the cooking process. Yellow ring: right temperature almost reached, time to reduce the heat. Green ring: cooking temperature reached, cooking time starts now. Regulate the heat so it remains in the green area. Red ring: The temperature is too high. The pot will automatically begin to release pressure. Simply turn down the heat.
- 6 Depressurizing: Depressure your pot by clicking on the control key on the lid. Vitavit® Premium can also depressurize using the valve. To save even more energy, allow the pressure cooker to cool down itself and use the residual heat.
- 7 Open: Fissler pressure cookers only open if there is no more pressure inside the pot. Open the pot by clicking the control key on the lid and turn the lid to the left.

# Vitavit® Premium

## Product benefits

### Made in Germany

Crafted in Hoppstaedten-Weiersbach, Rhineland-Palatinate, with a unique combination of leading technology, craftsmanship and premium materials – since 1845.

### Fissler's warranty

Highly durable, with a 15-year warranty on stainless steel parts.\*

### Up to 90% recycled 18/10 stainless steel

Sustainably crafted from up to 90% tough, recycled 18/10 stainless steel to last for generations.

### Cooking valve with traffic light system

The pressure inside the pot can be adjusted comfortably thanks to the cooking valve with traffic light system.

### Four cooking settings

The four cooking settings on the cooking valve, including a pressure-free steaming option, allow for extra-gentle or very fast cooking.

### Depressurizing function

The pressure can be reduced easily and safely thanks to the depressurizing function on the cooking valve and handle.

### Locking indicator

Switching from red to green with an audible 'click', the locking indicator signals that the pressure cooker has been sealed securely.

### Lid positioning aid

The handy positioning aid makes it easier to put the lid on and lock it.

### Easy to clean

Pot body and lid are dishwasher safe. Plastic parts and rubber gasket are easy to remove for cleaning by hand.

### Fissler Novogrill® surface

The waffled structure of the Novogrill® surface allows for frying and searing.

### Fissler CookStar® base

Exclusive, energy-efficient Fissler CookStar® base ensures optimal heat distribution.

### Measurement markings in liters with fill level control

Integrated measurement markings make it easy to measure liquids. The "Min" marking indicates the minimum amount of liquid with which the pressure cooker must be filled. The "Max" marking indicates the maximum level up to which the pressure cooker may be filled.

### Space-saving conical shape

Thanks to their conical shape, the pressure cookers are stackable to save space.

# Vitaquick® Premium

Made in Germany, the Fissler Vitaquick® Premium offers everything you need to enter the world of healthy and fast cooking.

Like all Fissler pressure cookers, Vitaquick® reduces the cooking time by up to 70% compared to a conventional saucepan, saving up to 50% energy, preserving vitamins and flavors.

Two cooking settings allow for extra-gentle or very fast cooking of vegetables, legumes, fish or meat. Discover the safe and easy world of pressure cooking with the Vitaquick® Premium, sustainably crafted in Hoppstaedten-Weiersbach, Rhineland-Palatinate from up to 90% recycled 18/10 stainless steel.

## Vitaquick® Premium

Country of origin	Premium quality – Made in Germany
Warranty	10-year warranty on stainless steel parts*
Material	Up to 90% recycled 18/10 stainless steel
Surface exterior	Satin-finished stainless steel
Surface interior	Finely polished stainless steel
Control valve	Cooking display with two cooking settings
Cooking settings	Two cooking settings
Depressurizing function	Depressurizing function on the handle to easily adjust pressure
Locking indicator	Lid positioning-orientation and locking indicator to securely seal the pressure cooker
Base	Fissler Superthermic base for even heat distribution
Stovetop suitability	Suitable for all types of stovetops, including induction
Handles	Ergonomic plastic handle
Measurement markings	Fill level control
Oven suitability	Not suitable for oven use
Dishwasher suitability	Dishwasher safe, with the exception of removable parts
Accessories	Steamer inset and tripod are available separately

# Vitaquick® Premium

## Product benefits

### Made in Germany

Crafted in Hoppstaedten-Weiersbach, Rhineland-Palatinate, with a unique combination of leading technology, craftsmanship and premium materials – since 1845.

### Fissler's warranty

Highly durable, with a 10-year warranty on stainless steel parts.\*

### Up to 90% recycled 18/10 stainless steel

Sustainably crafted from up to 90% tough, recycled 18/10 stainless steel to last for generations.

### Cooking display with two cooking settings

The pressure inside the pot can be adjusted easily thanks to the cooking display. The two cooking settings allow for extra-gentle or very fast cooking.

### Depressurizing function

The pressure can be reduced easily and safely thanks to the depressurizing function on the handle.

### Locking indicator

Switching from red to green with an audible 'click', the locking indicator signals that the pressure cooker has been sealed securely.

### Lid positioning-orientation

The handy positioning-orientation makes it easier to put the lid on and lock it.

### Easy to clean

Pot body and lid are dishwasher safe. Plastic parts and rubber gasket are easy to remove for cleaning by hand.

### Energy-efficient Fissler Superthermic base

The energy-efficient Fissler Superthermic base is suitable for all types of stovetops, including induction, and ensures even heat distribution.

### Fill level control

The "Min" marking indicates the minimum amount of liquid with which the pressure cooker must be filled. The "Max" marking indicates the maximum level up to which the pressure cooker may be filled.

### Space-saving conical shape

Thanks to their conical shape, the pressure cookers are stackable to save space.

Cast iron

# Original-Profi Collection®

As passionate home cooks and chefs, we love the even heat distribution, high heat resistance, durability, flavor development and natural non-stick properties of cast iron cookware. It is ideal for sautéing vegetables, searing and braising meat, preparing a creamy risotto or baking bread.

Our expertise and experience gained over nearly 180 years of crafting stainless steel cookware has been used to translate the benefits and versatility of the iconic Original-Profi Collection® into a classic yet strikingly modern cast iron collection.

Designed in Idar-Oberstein, Germany, and handmade in the French Ardennes. Fissler teamed up with the best craftsmen in the Ardennes region, the birthplace of traditional forging, renowned for over 100 years of crafting premium cast iron cookware that lasts for generations. The result is a premium cast iron cookware collection combining the unique cooking characteristics of the classic French Cocotte and the iconic design of the Fissler Original-Profi Collection®.

## Original-Profi Collection® cast iron roaster

Country of origin	Fissler chef's quality – Made in France
Warranty	15-year warranty*
Scope	Ideal for sautéing, braising, slow-cooking and baking
Material	Premium cast iron
Color	Slate black, concrete grey, jade green
Surface exterior	Long-lasting multi-layered enamel
Surface interior	Black flavor-enhancing frying surface with multi-layered enamel coating, a rough feel, micro grill effect and natural non-stick properties
Base	Smooth enamelled base, extremely stable and level on the stovetop, with superior heat distribution and retention
Stovetop suitability	Suitable for all types of stovetops, including induction
Lid	Heavy tight-fitting lid with Fissler AromaStar condensate function for even juicier and tastier dishes
Lid handle	Large ergonomic handle with stainless steel ring in the distinctive design of the Original-Profi Collection® makes it easy and comfortable to lift the lid, even with oven gloves
Side handles	Sturdy ergonomic upwardly curved side handles for a comfortable and secure grip. We recommend the use of oven gloves throughout
Pouring rim	Extra-large pouring rim for convenient and precise pouring of liquids without spills
Oven suitability	Suitable for oven use at up to 250 °C (480 °F)
Dishwasher suitability	Not dishwasher safe, cleaning by hand recommended to maintain natural non-stick properties

# Original-Profi Collection®

## Product benefits

### Designed by Fissler in Germany & Made in France

Designed by Fissler in Idar-Oberstein, Germany, and handmade true to traditional craftsmanship in the French Ardennes.

### Fissler's warranty

Long-lasting, with a 15-year warranty.

### Premium cast iron

Robust and durable, high carbon iron alloy that distributes and retains heat extremely well, manufactured from professional authentic French quality cast iron.

### Lid with Fissler AromaStar

The heavy tight-fitting lid with Fissler AromaStar pattern on the inside traps evaporated moisture in the pot, allowing it to drip evenly onto the food for even juicier, tastier meals.

### Flavor-enhancing frying surface with micro grill effect

The exclusive flavor-enhancing frying surface of this Dutch oven is made largely of glass, and without PFAS/PTFE. The black hand-glazed enamelled interior with its rough feel generates a micro grill effect and natural non-stick properties, ensuring particularly intense roasting flavors.

### Oven suitability

Extremely heat-resistant and tough, suitable for oven use at up to 250 °C (480 °F).

### Extra-large pouring rim

The extra-large tried and tested pouring rim of the Original-Profi Collection® allows for convenient and precise pouring of liquids without spills.

### Sturdy side handles

Sturdy upwardly curved side handles for a comfortable and secure grip. We recommend the use of gloves throughout.

### Large ergonomic lid handle with a stainless steel ring

The large ergonomic lid handle with stainless steel ring in the distinctive design of the Original-Profi Collection® makes it easy and comfortable to lift the lid, even with oven gloves. We recommend the use of oven gloves when touching the lid.

### Smooth enamelled pot base

The enamelled base is extremely stable, ensuring that the pot remains level on the stovetop at all times. It is highly energy-efficient due to its superior heat distribution and retention.

### Excellent & energy-efficient heat distribution

Superior heat distribution and retention for energy-saving cooking on all types of stovetops, including induction.

## Cast iron pans for strong roasting flavors.

Cast iron skillets are known for their very even heat distribution, high heat resistance, durability, flavor development and natural non-stick properties. The black hand-glazed enamel on the inside of the skillet is largely made of glass and has a rough feel to it.

Over time, the black flavor-enhancing frying surface with micro grill effect develops its natural non-stick properties, the so-called patina.

### Usage:

Before using it for the first time, clean your cast iron cookware with hot water and washing-up liquid. Then dry it thoroughly. Rub the inside and top edge of the product with a little vegetable oil. Gradually heat up the product until the oil starts to smoke. Let the cookware cool down before removing any excess oil with a cloth.

The oil has been spread across the enamel coating and will help to generate the natural non-stick properties of the flavor-enhancing surface.

Heat up cast iron cookware slowly on low to medium heat on a stovetop of the correct size. Do not heat up quickly as this may damage the product permanently. After 5 minutes on low to medium heat, you can turn up the stovetop to full heat.

### Cleaning:

We recommend cleaning your cast iron cookware by hand with hot water and a soft sponge to ensure a longevity and to maintain the natural non-stick properties. Use small amounts of washing-up liquid only for tackling persistent stains.

### Fissler pro-tip:

Thanks to the excellent heat retention of cast iron, the pan is perfect for serving and keeping food warm at the table.

Cast iron

# Original-Profi Collection®

As passionate home cooks and chefs, we love the even heat distribution, high heat resistance, durability, flavor development and natural non-stick properties of the cast iron grill pan. It is ideal for searing and roasting. The ribs of the flavor-enhancing frying surface add a char-grilled pattern and intense char-grilled flavors to the food.

Our expertise and experience gained over nearly 180 years in crafting stainless steel cookware has been used to translate the benefits and versatility of the iconic Original-Profi Collection® into a classic yet strikingly modern cast iron collection.

Designed in Idar-Oberstein, Germany, and handmade in the French Ardennes. Fissler teamed up with the best master craftsmen in the Ardennes region, the birthplace of traditional forging, renowned for over 100 years of crafting premium cast iron cookware that lasts for generations.

## Product benefits

### Designed by Fissler in Germany & Made in France

Designed by Fissler in Idar-Oberstein, Germany, and handmade true to traditional craftsmanship in the French Ardennes.

### Fissler's warranty

Long-lasting, with a 15-year warranty.

### Premium cast iron

Made from cast iron in typical French premium quality, this iron alloy – durable, robust and high in carbon content – distributes and retains heat extremely well.

### Flavor-enhancing frying surface with micro grill effect

The ribs of the flavor-enhancing frying surface add a char-grilled pattern and particularly intense char-grilled flavors. Excess fat is trapped between the ribs, enabling low-fat frying. The black coating of the frying surface is largely made of glass, and without PFAS/PTFE. It has a rough feel and natural non-stick properties.

### Oven suitability

Extremely heat-resistant and tough, suitable for oven use at up to 250 °C (480 °F).

### Extra-large pouring rim

The extra-large tried and tested pouring rim of the Original-Profi Collection® allows for convenient and precise pouring of liquids without spills.

### Sturdy side handles

Sturdy upwardly curved side handles for a comfortable and secure grip. We recommend the use of oven gloves throughout.

## Moments Collection cast iron pan

Country of origin	Designed by Fissler in Germany & Made in China
Warranty	10-year warranty
Scope	Ideal for searing and roasting
Material	Premium cast iron
Color	Burgundy red, ivory white
Surface exterior	Long-lasting multi-layered enamel
Surface interior	Black enamelled frying surface with a rough feel, micro grill effect and natural non-stick properties
Durability	Extremely durable and tough
Base	Smooth enamelled base, with superior heat distribution and retention, level on the stovetop at all times
Stovetop suitability	Suitable for all types of stovetops, including induction
Pouring rim	Spouts on either side allow for easy and precise pouring of liquids
Handles	Long ergonomic enamelled handle with eyelet, made from a single piece of sturdy cast iron, and helper handle make it comfortable and safe to carry, even with oven gloves. We recommend the use of oven gloves when touching the handle
Measurement markings	-
Oven suitability	Suitable for oven use at up to 250 °C (480 °F)
Cleaning	-
Dishwasher suitability	Dishwasher safe, cleaning by hand recommended to maintain natural non-stick properties
Accessories	-

# Moments Collection

## Product benefits

### Designed by Fissler in Germany & Made in China

Designed by Fissler in Idar-Oberstein, Germany, and made in China.

### Fissler's warranty

Long-lasting, with a 10-year warranty.

### Premium cast iron

Made of high carbon alloy in proven Fissler quality, the robust and durable cast iron distributes and retains heat extremely well.

### Rim with spouts

Spouts on the either side allow for easy and precise pouring of liquids.

### Frying surface with micro grill effect

The black enamel coating on the inside of the pan is largely made of glass, without PFAS/PTFE and has a rough feel, creating a frying surface with micro grill effect and natural non-stick properties.

### Oven suitability

Extremely heat-resistant and tough, suitable for oven use at up to 250 °C (480 °F).

### Convenient helper handle

Large helper handle for a comfortable and secure grip. We recommend the use of oven gloves when touching the handle.

### Long ergonomic handle with eyelet

Long ergonomic enamelled handle with eyelet, made from a single piece of sturdy cast iron, comfortable to carry, even with oven gloves. We recommend the use of oven gloves when touching the handle.

### Smooth enamelled pan base

The enamelled base is extremely stable, ensuring that the pan remains level on the stovetop at all times. It is highly energy-efficient due to its superior heat distribution and retention.

### Excellent & energy-efficient heat distribution

Superior heat distribution and retention for energy-saving cooking on all types of stovetops, including induction.

\*Ceratal® coating free from PFAS/PTFE

## Pans crafted from durable 18/10 stainless steel for searing.

Stainless steel frying pans can be heated up higher than coated frying pans and are perfect for searing meat and shellfish – with and without fat.

### Usage:

Heat the frying pan without frying fat or oil with 2/3 stove power and wait for 3 to 4 minutes. The food should have room temperature. Otherwise the temperature in the frying pan will drop significantly and the crust will form more slowly. Once in the frying pan, press the food briefly down. It will initially stick to the frying pan but after a few minutes it will come off the base by itself. Check by lifting it at the edge. It should come off without any force. Only then should you turn it over.

### Cleaning:

Stainless steel frying pans are dishwasher safe but they are just as easy to clean by hand. After use, simply add warm water and washing-up liquid, leave to soak briefly, then rinse.

### Fissler pro-tip:

To see if the right temperature has been reached, squirt a few drops of cold water into the frying pan. Important: There should not be any fat or oil in the frying pan. If it hisses and the drops evaporate, the frying pan is still too cold. When the drops dance and bubble up clear as glass, the correct temperature has been reached. Simply wipe off any remaining water with a paper kitchen towel.

## Pans with water-based non-stick coating for gentle and low-fat frying.

Delicate foods such as egg dishes, breaded food or vegetables can be prepared in a coated pan with little or even no fat.

### Usage:

To prevent the frying fat as well as the food from overheating and to preserve the long-lasting non-stick performance, the frying pan should be heated with 2/3 stove power rather than with full power. You can then add the food to the pan and sear it on all sides to the desired browning level.

### Cleaning:

To ensure a long life, we recommend cleaning the pan by hand. After use, simply clean the frying pan with hot water and a soft sponge or a paper kitchen towel. Important: Do not pour cold water onto a coated pan while it is still warm. The thermal shock might cause damage to the non-stick coating.

### The right frying fat for every dish:

Refined oils like rapeseed or sunflower oil are perfect for frying as they have a high smoke point. Solid fats such as clarified butter or coconut fat are also good for frying at high temperatures. Virgin oils are cold pressed and therefore not suitable for frying. They are ideal to enhance cold dishes such as salads.

## Pans with ceramic coating crafted without PFAS/PTFE for gentle and crispy frying.

Ceramic frying pans are perfect for gentle and crispy frying of meat, vegetables and egg dishes.

Before use add a spoonful of frying fat or frying oil to the pan. This ensures that the ceramic non-stick coating will last for a long time.

### Usage:

First add oil to the frying pan, then heat with 2/3 stove power. You can then add the food to the frying pan and sear it on all sides to the desired browning level.

### Cleaning:

Ceramic frying pans are not dishwasher safe. For easy cleaning, first let it cool down completely. Then wipe it with a paper kitchen or towel and clean it by hand with a soft sponge and warm water. Important: Do not pour cold water onto a coated pan while it is still warm. The thermal shock might cause damage to the non-stick coating.

# Original-Profi Collection® wok

## Product benefits

### Made in Germany

Crafted in Hoppstaedten-Weiersbach, Rhineland-Palatinate, with a unique combination of leading technology, craftsmanship and premium materials – since 1845.

### Fissler's warranty

Highly durable, with a 15-year warranty.\*

### Up to 90% recycled 18/10 stainless steel

Sustainably crafted from up to 90% tough, recycled 18/10 stainless steel to last for generations.

### Premium 5-ply material

For fast and even heat distribution from the base to the rim.

**Original Chinese wok shape**  
For searing and crispy frying.

### Condensate-Plus function

The slightly concave shape of the Original-Profi Collection® metal lid allows steam to drip back into the wok, making the dishes even juicier and tastier.

### Extra-large pouring rim

Extra-large pouring rim for convenient and precise pouring of liquids without spills.

### Polished stainless steel handle with eyelet

High-quality handle, made of 18/10 stainless steel.

### Measurement markings in liters and quarts

Integrated measurement markings make it easy to measure liquids.

## Original-Profi Collection®

reddot winner 2022

Just like all pots and pans of this line, the Original-Profi Collection® roaster is sustainably crafted in Germany from up to 90% recycled stainless steel to last for generations. With its high-dome lid, roasts as well as larger portions can be prepared comfortably and served in style. The roaster features everything that has made the Original-Profi Collection® one of the world's most successful cookware lines: ergonomic Fissler Stay-Cool metal handles, the Condensate-Plus function, the exclusive CookStar® base and an extra-large pouring rim. The roaster is suitable for oven use at up to 230 °C (450 °F).

# Warranty and guarantee

Every Fissler product is made of high-quality materials. During production, we check the quality of our products multiple times before they have to pass a strict final inspection. This is why we provide a warranty, valid from the date of purchase, for numerous Fissler products in accordance with the following warranty conditions, regardless of the country in which you purchased the Fissler product. Therefore, we guarantee that these Fissler products are free from material and/or processing defects. In addition to this warranty, you are entitled to legal warranty rights which are not restricted by this warranty.

## Legal warranty

The customer is entitled to the usual statutory warranty rights.

Normal signs of wear on the non-stick coating as well as damage due to improper use (e.g. overheating, discoloration, scratches, falls, or improper cleaning) are excluded from warranty. Signs of wear and visual changes, as a result of dishwasher use, are also excluded.

- We explicitly point out that there is no liability for damages based on
  - improper use,
  - improper handling,
  - failure to follow these instructions for use and care, or
  - improperly carried out repairs, or the use of third-party spare parts. The same applies to spare parts and accessories.

The same applies to spare parts and accessories.

## Manufacturer's warranty

- We provide a manufacturer's warranty for numerous Fissler products in accordance with the following warranty conditions from the date of purchase, regardless of the country in which you purchased the Fissler product. Therefore, we guarantee that these are free from material or processing defects.

In the case of a manufacturer's warranty claim, Fissler will, at their sole discretion and at their own expense, either repair the product or supply a suitable replacement.

Claims resulting from this manufacturer's warranty only exist if and to the extent to which

- the product does not have any damage or signs of wear which were caused by use deviating from normal purposes and/or specifications according to the instructions for use,
- the product shows signs which can be attributed to improper repairs or improper chemical or physical influences on the product surface,
- unauthorized accessories or only accessories authorized by the manufacturer were installed in the product.

In addition to this manufacturer's warranty, you are entitled to legal warranty rights, which are not restricted by this manufacturer's warranty.

## General Terms & Conditions

### 1. Scope of application

1.1. Deliveries and services are governed exclusively by the following terms and conditions. Any divergent, conflicting or supplementary terms and conditions of the ordering customer do not become part of the contract, even where there is knowledge of such terms and conditions, unless their validity is expressly consented to in writing. Our terms and conditions apply even if we made unconditional delivery to the ordering customer where we have knowledge of terms and conditions of the ordering customer that conflict with or differ from our terms and conditions.

1.2. Our terms and conditions apply only in respect of businesspersons within the meaning of § 310 (I) of the German Civil Code (BGB). They also apply to all future transactions with the ordering customer, provided that they are a similar type of transaction.

1.3. Our offers are non-binding and become binding only upon written confirmation from the supplier or once delivery has been made.

### 2. Prices and Payment

2.1. Unless otherwise agreed in writing, our prices are ex works, exclusive of packaging and plus VAT at the currently applicable rate. Packaging is charged at cost and shown separately on the invoice. Deliveries are made at the prices that are valid on the date on which the contract is concluded.

2.2. Unless otherwise agreed in writing, invoices for deliveries of goods are payable with a 2% discount within 15 days provided that the ordering customer is not in default as regards payment of receivables or net within 30 days of the invoice date. In principle, invoices for other services are payable net without any discount. Cheques are deemed payment only after they have been honored.

2.3. Default interest is charged at 9 percentage points above the respective base interest rate per annum. We reserve the right to claim greater compensation for loss incurred because of late payment.

2.4. If, after the acceptance of an order, there are legitimate reasons to doubt the ordering customer's ability to pay, we may choose whether to demand cash payment for all outstanding receivables or to demand the provisions of collateral before delivery. If the ordering customer does not comply with this demand, we may demand the return of the goods subject to reservation of ownership and rescind the contract.

2.5. The ordering customer will be entitled to set off payment against counterclaims only if the ordering customer's counterclaims have been established with final and binding effect by a court, are undisputed or have been acknowledged by us.

### 3. Transfer of Risk on Shipment

Unless otherwise agreed, shipment is made on a carriage forward basis. The risk of accidental loss or accidental deterioration of the goods passes to the ordering customer – even where the works' own vehicles are used – at the time the goods are handed over to the transporting entity. This applies irrespective of whether the goods are shipped from the place of performance or who is responsible for the freight or insurance costs.

### 4. Delivery Period

4.1. The commencement of the delivery period specified by us is subject to the clarification of all technical questions and to the ordering customer fulfilling its obligations duly and on time. We reserve the right to assert the defence of non-performance of contract. If the ordering customer delays the acceptance of the goods or culpably breaches other obligations to cooperate with us, we are entitled to demand compensation for any damage that we may suffer as a result, including any additional expenses. We reserve the right to assert more extensive claims.

4.2. Force majeure will exempt us from our obligation to deliver. Circumstances that make it unreasonably difficult or impossible for us to deliver at no fault of our own will be deemed equivalent to force majeure regardless of whether such circumstances concern us or our subcontractors.

4.3. Partial deliveries are permitted unless the ordering customer cannot reasonably be expected to accept them.

### 5. Warranties and Report of Defects, Liability

5.1. The assertion of warranty rights by the ordering customer requires that the ordering customer has duly met its obligations under § 377 of the German Commercial Code (HGB) with regard to inspecting goods and reporting defects. Obvious defects must be reported in writing without delay, but within 14 days after receipt of the goods at the latest, and concealed defects must be reported in writing without delay after they are identified; otherwise, the goods will be deemed to have been accepted. Any transport damage must be reported immediately to the freight forwarder.

5.2. Should – despite all due care having been given – the delivered goods have a defect that was already present at the time the risk was transferred, we will at our discretion repair the goods or deliver replacement goods, provided that the defects were reported in due time. We must always be given an opportunity to correct deficiencies (subsequent remedy) within a reasonable period.

5.3. With regard to the quality/properties of the goods, as a rule, only our product description will be deemed to have been agreed on. Public statements, commendations or advertising do not constitute proper information on the quality/properties of the goods.

5.4. Claims of the ordering customer in respect of expenditures incurred in connection with subsequent remedy, including without limitation transport, in-transit, labour and material costs, are excluded where the expenditures are higher because the goods delivered by us were subsequently moved to a location other than the ordering customer's establishment, unless such transportation is in accordance with their designated use.

5.5. In the event of a simple negligent breach of a material contractual duty (including the duty to deliver defect-free goods), that is a duty the due fulfilment of which the ordering customer relies on and may rely on to achieve the contractual purpose, our liability is limited to the typically occurring, foreseeable damage. Any further liability is excluded. This does not apply if a defect caused by simple negligence results in injury to life body or health. This will have no effect on liability under the German Product Liability Act (Produkthaftungsgesetz).

### 6. Reservation of Ownership

6.1. Irrespective of any treatment or processing, the goods supplied remain our property until all receivables under the business relationship have been settled. The inclusion of individual receivables in an open account or the striking and acknowledging of a balance does not affect the reservation of ownership. Payment is deemed to have been rendered when it has been received by us. The ordering customer is entitled to sell the reserved goods subject to reservation of ownership in the ordinary course of business; the ordering customer is not permitted to pledge the goods or assign them by way of security. The ordering customer must secure our rights in all cases where the goods subject to reservation of ownership are resold on a credit basis. The goods may not be sold after payments have been suspended or an application for insolvency has been filed. The ordering customer's receivables resulting from the resale of goods subject to reservation of ownership are hereby assigned to us until all of its claims have been satisfied; we accept this assignment. Where the ordering customer and its customers conduct business on an open account basis, the respective balance is deemed to have been assigned to us in advance. The ordering customer may collect accounts receivable that have been assigned to us unless the ordering customer is in default of payment or has suspended payments or an application to open insolvency proceedings has been filed.

6.2. The ordering customer must provide us with all information and documents that we need to assert our rights towards the party that has purchased from the ordering customer without delay if requested to do so.

6.3. We must be informed without delay of any enforcement measures by third parties regarding the goods subject to reservation of ownership or the accounts receivable assigned in advance; all necessary documents must be handed over.

### 7. Place of Performance and Place of Jurisdiction

The place of performance for delivery is Idar-Oberstein or Hoppstädten-Weiersbach, as decided by us. The place of performance for payments is Idar-Oberstein. If the ordering customer is a merchant/entrepreneur, the place of jurisdiction for all disputes, irrespective of their legal basis, is the regional court with jurisdiction for Idar-Oberstein. We are, however, entitled to bring an action against the ordering customer at the court with jurisdiction for the ordering customer's domicile.

### 8. Final provisions

8.1. If individual provisions of the present terms and conditions or of the delivery transaction are or become invalid, this does not affect the validity of the remaining provisions. An invalid provision will be deemed replaced by a valid provision that reflects as closely as possible the economic intent of the invalid provision.

8.2. This Agreement and the entire legal relations between the parties are governed by the laws of the Federal Republic of Germany, excluding the United Nations Convention on Contracts for the International Sale of Goods.
